Battery Information

Incorrect use of batteries may result in battery leakage, overheating or explosion. When using batteries, be sure to follow these instructions:

- (1) Install only new AAA (LR3) alkaline batteries into the accessory.
- (2) Make sure the positive (+) and negative (-) ends of the batteries are inserted in the correct directions. The supply terminals are not to be short-circuited.
- (3) Keep batteries out of reach of children.
- (4) Do not mix used and new batteries. Use only appropriate sized batteries.
- (5) Do not mix different battery types and do not mix different battery brands.
- (6) Do not use rechargeable batteries or attempt to recharge non-rechargeable type batteries.
- (7) Remove the batteries when the product will not be used for an extended period of time.
- (8) Do not use drained or dead batteries and when the batteries become drained, take them out of the controller.
- (9) If the battery has leaked, be sure to carefully remove all fluid with a paper towel before inserting new batteries. Take care to keep all leaked fluid from touching your skin or clothes. If fluid comes into contact with the skin, flush with water
- (10) Dispose of batteries in accordance with local and national disposal regulations.

FCC Information for the Consumer

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that the interference will not occur in a particular installation. If this equipment does cause harmful interference to radio television reception, which be determined by turning the equipment off and on, the user is encouraged to try to connect the interference by on or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.
- . Modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment under FCC rules.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC Information for the Consumer

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device."

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

- L'exploitation est autorisée aux deux conditions suivantes
- (1) l'appareil nedoit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."
